(54) Title: ELONGATED LIGHT EMITTING DIODE LIGHTING SYSTEM

(57) Abstract: An elongated lighting system that is modular, being of discrete length having a plurality of LEDs on an elongated support. The system has LEDs connected to a pair of electrical conductors having a length equal to, or less than the discrete length of the elongated lighting system. The elongated lighting system is moulded and embedded into transparent, opaque, semi-transparent, or mixed transparent and opaque plastic module connected to an electrical source.
